Step 1: Feed the braided fabric cord into the canopy until the desired amount of cord is left between the canopy and light body. Take into account that a minimum of 6" of cord will be required for connecting the wiring to the driver.

Step 2: Use the measuring tape to be sure that all of your light body is hanging the proper distance from the canopy. (We recommend 2 inches of spacing in height between each gem.) Tighten the cord grip using a flat blade screw driver. The cord grip is on the face of the canopy. **DO NOT OVER TIGHTEN. THIS MAY DAMAGE THE FIXTURE.**

Step 3: Make Wire Connections to the Driver. Braided fabric cord must be wired to the Driver, **Black to Black and White to Red.** To wire in series make the following connections.

Driver, Red Lead—LED 1, White Lead
LED 1, Black lead—LED 2, White Lead
LED 2, Black lead—LED 3, White Lead
LED 3, Black Lead—Driver, Black Lead

WARNING

THE **BLACK AND RED** LEADS FROM THE DRIVER ARE FOR DC CURRENT ONLY. IF THESE LEADS OR THE LED PENDANTS ARE CONNECTED TO AC POWER THE FIXTURE WILL BE DAMAGED.

The LED's must be wired in series to work properly.

HAMMERTON STUDIO

When we introduced the Hammerton Studio brand in 2014, we saw an enormous opportunity to raise the bar in decorative lighting. In design, we wanted to lead rather than follow. In construction, we wanted to showcase Hammerton's renowned reverence for time-honored artisan craftsmanship and authentic materials. In performance, we wanted to provide highly reliable solutions that far exceeded industry norms for aesthetics, function, and quality. Based on the brand's dramatic growth and customer feedback, it's clear we are on the right track.

EXTRAORDINARY DESIGN VALUE IN ARTISAN GLASS & METALWORK

Hammerton began in 1995 as a blacksmith shop, but we've come a long way since then. Today we employ a world class team of metal artisans who are disciplined in a broad range of fabrication techniques and processes. We've also added in-house capabilities in blown, cast and kiln-fused glass, and today Hammerton operates one of the largest artisan glass production facilities in the U.S. With deep design and fabrication expertise at the intersection of glass and metalwork, we're laying the foundation for a new era of lighting innovation.

Our Hammerton Studio brand stands on the shoulders of more than a quarter century of experience pushing the boundaries of innovative custom lighting design.
