ATMOSPHERE COLLECTION

New from Hammerton Studio, the Atmosphere collection evokes the fluid elegance of cloud-filled skies with a captivating fusion of artisan crafted metalwork and glass in several new fixture styles shown here.

Cirrus layers textured kiln-fused glass with cast crystal glass, while **Cumulus** juxtaposes monochromatic or two-tone layers of handcrafted metal. Both designs strike an intriguing balance of whimsy and sophistication that suits a wide range of interiors.

NEW MANDREL LINEAR CHANDELIERS

Featuring an LED-illuminated glass 'mandrel' inner spine, this popular linear fixture now includes two new styles. Each is available in 52" and 74" widths and a choice of eight finishes.

SCAN TO VIEW ALL

Aalto: Nodding to both mid-century and modern organic design, this versatile linear fixture features alternating beads of metalwork and artisan blown crystal glass in our unique geometric 'Aalto' style. Choose from four glass colors.

Corinth: The exquisite beauty of natural stone transforms this minimalist linear design into a stunning focal point in any interior. Choose from Black Marble, White Marble or Travertine stone.
