Cabochon 3pc Swag Multi-Pendant

Assembly Instructions

Step 1: Remove the zip ties from the coiled cloth braided cords inside of the canopy. This should allow you to feed the cord out through the cord grips, and adjust the overall height of each pendant. Do not pull the cord so far as to stress the internal wiring.

**DO NOT REMOVE ANY PREINSTALLED WIRES
(FOR REFERENCE ONLY)**

WARNING

DO NOT DIRECTLY CONNECT LEDs TO AC POWER.
LEDs will be damaged if exposed to high voltages. The LED's must be wired in series to work properly.

Step 2: Using the E-Z Toggle kits (see E-Z Toggle Instructions on next page) included in the Hardware pack, install Swag Hooks radially around where the Canopy will be mounted using a measuring tape to achieve the desired distance. Holding the Canopy in the approximate location it will be installed, hold the braided cloth cord next to a swag hook to determine the desired sag and pendant length. Once the desired configuration is determined, tighten the cord grip using a flat blade screw driver. The cord grip is on the Faceplate. **DO NOT OVER TIGHTEN. THIS MAY DAMAGE THE FIXTURE.**

Step 3: Make wire connections from driver to source power. **WHITE to WHITE, BLACK to BLACK,** and ground the fixture to the canopy. Insert Driver into J-Box

Step 4: Mount the canopy to the ceiling using the provided **Mounting Instructions.**

Step 5: Attach glass to LED pendant assembly.

The glass will be snugly attached to the Glass Adapter, creating a cohesive unit. Turn the unit so that it threads onto the Glass Adapter Cap. Tighten firmly.

Prior to installing glass ensure all cords are properly secured through each swag hook so the glass is being supported by the swag hook and not the canopy. Solely supporting by the canopy may overload the J-Box mount resulting in damage.

About Hammerton Studio

HAMMERTON STUDIO

When we introduced the Hammerton Studio brand in 2014, we saw an enormous opportunity to raise the bar in decorative lighting. In design, we wanted to lead rather than follow. In construction, we wanted to showcase Hammerton's renowned reverence for time-honored artisan craftsmanship and authentic materials. In performance, we wanted to provide highly reliable solutions that far exceeded industry norms for aesthetics, function, and quality. Based on the brand's dramatic growth and customer feedback, it's clear we are on the right track.

EXTRAORDINARY DESIGN VALUE IN ARTISAN GLASS & METALWORK

Hammerton began in 1995 as a blacksmith shop, but we've come a long way since then. Today we employ a world class team of metal artisans who are disciplined in a broad range of fabrication techniques and processes. We've also added in-house capabilities in blown, cast and kiln-fused glass, and today Hammerton operates one of the largest artisan glass production facilities in the U.S. With deep design and fabrication expertise at the intersection of glass and metalwork, we're laying the foundation for a new era of lighting innovation.

Our Hammerton Studio brand stands on the shoulders of more than a quarter century of experience pushing the boundaries of innovative custom lighting design.
